

*Blackfoot School District 55
270 E Bridge St.
Blackfoot ID 83221*

November 7, 2022

Dear Parents, Teachers, Building Occupants, and Employee Organizations:

In compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), Blackfoot School District No. 55 is required to provide annual notification of inspections, response actions, and post-response action activities, including periodic re-inspection and surveillance activities that are planned or in progress.

A periodic surveillance of asbestos containing building materials (ACBM) is performed in all district buildings every six (6) months. A complete re-inspection of all buildings containing asbestos is completed every three (3) years and was last completed on February 2022. At the last re-inspection, all materials listed in the Asbestos Management Plan as asbestos containing (or assumed to be asbestos-containing) were inspected and found to be in good condition.

Information about these inspections is included in the district's Asbestos Management Plan, which can be found in each school's main office and at the district's administrative office located at 270 E Bridge St. Blackfoot ID. You may review a copy of the plan during regular business hours.

The following buildings contain no asbestos-containing building materials; therefore, no operations and maintenance programs or future inspections are required: Ridge Crest Elementary.

During the past year, asbestos containing building materials have been removed, encapsulated, or enclosed in the following buildings: Irving Student Support Center

During the next year, we plan to conduct the following asbestos related activities at the following school buildings continue with the Blackfoot School District's current plan.

Questions or concerns regarding asbestos or the district's asbestos management program should be addressed to the district's designated contact: Hal Silzly 208-317-5514

NOTE: A dated copy of all asbestos management plan notifications distributed to workers, building occupants, parents/guardians, teachers, and employee organizations must be kept with each school's asbestos management plan.
