

Activity Participation due to School Closure

The Blackfoot School District acknowledges that student safety is a top priority. The decision to close school for the day is based on two scenarios: first, road conditions and second, temperature. Both scenarios affect student safety differently and therefore deserve different considerations. If school is cancelled for the day, the decision to hold scheduled district/school functions will be determined on a case-by-case basis by the superintendent, school administrator, and activities director.

Considerations

If the Blackfoot School District cancels school due to unsafe temperature or road conditions, the decision to hold activities will be made on a case-by-case basis. The recommendation to hold activities will be made by the superintendent, building administrator and activities director. The information regarding the decision will include, current weather conditions, weather forecasts, consultation with the traveling school, and road conditions. The superintendent will inform the board chair prior to the decision being made final.
